ACIT 4850 – Enterprise System Integration – Winter 2026

Lesson 11 – Workflows

For Lesson 11 we will be continuing with Continuous Delivery in our pipelines and discussing development workflows. Please read the following for the Lesson 11 class:

Trunk vs. Feature Development:

- https://www.perforce.com/blog/vcs/trunk-based-development-or-feature-driven-development#what-trunk

Developer Workflows:

- Merge Requests (GitLab): https://docs.gitlab.com/ee/user/project/merge_requests/
- Pull Requests (GitHub): https://help.github.com/en/github/collaborating-with-issues-and-pull-requests/about-pull-requests
