Information Assurance and Security – ACIT4630

Iman Anooshehpour
Week 1

BRITISH COLUMBIA
INSTITUTE TECHNOLOGY

BCIT™

Introduction

1. Little about me
2. Little about you

Some Emailing Tips

- Include your **Course Code**
- Include your **SET / Cohort**

You can also include them all in the subject field:

- **<YourSubject>-<CourceCode>-<Cohort>-<FullName>**
- Meeting Appointment-ACIT4630-A-Iman Anooshehpour

Course Structure

Course Outline	bcit.ca/outlines/20261089229/
Labs	https://codevoyage.dev/Information_Assurance_and_Security_Labs/
Class Breakdown	- A quiz at the beginning of each class. - Lecture and discussion - Lab
Office Hours – By Appointment	Online Wednesdays 10:00 AM – 12:00 PM Email: iman_anooshehpour@bcit.ca Email Subject: <YourSubject>-<CourceCode>-<Cohort>-<FullName>

Evaluation Criteria

Criteria	Percentage	Note
Labs	20%	2% each, extra bonus lab
Quizzes	20%	2% each, extra bonus quiz
Assignments	14%	3.5% each, Individual
Presentation	10%	1 per Team
Midterm Exam	15%	Individual
Final Exam	21%	Individual
	100%	

Passing Criteria:

- 50% overall in the course
- Students must achieve a cumulative average grade of at least 70% across all labs.

Quizzes

1. Quizzes cover the previous class topic and the topics in the readings and videos provided prior to class.
2. Quizzes are individual and done in-class only.
3. If you miss your class you cannot make up a quiz, but your can recover **1 quiz** with taking a **bonus** quiz.

Weekly Classes

- You are always welcome to pop in any classes; unless there are logistical problem (e.g. no more space is available)
- This is another chance for you not to miss the quiz which is in-class.
- This also provides another chance if you need more time to complete the lab

	TUESDAY	WEDNESDAY	FRIDAY
8:30	ACIT-4630 SET A DTC-557		ACIT-4630 SET C DTC-590
9:30			
10:30			
11:30			
12:30		OFFICE HOURS	
13:30	ACIT-4630 SET B DTC-553		
14:30			
15:30			

Labs

1. The lab write-up has the due date (end of this class or start of next class) and what to demo and submit.
2. You can recover one Lab with the bonus Lab (11th)

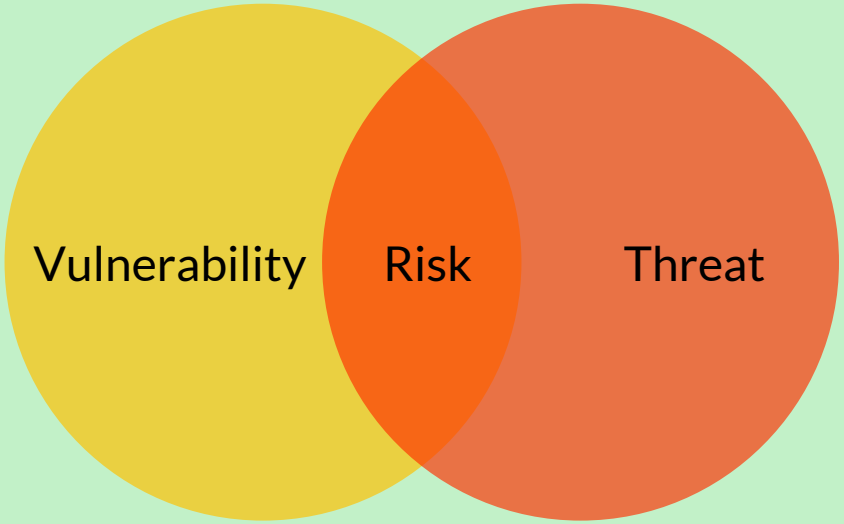
Security Control Example	Objectivity
Access Control	
Version Control	
Encryption	
Ensuring Fault Tolerance	
Dedicating multiple servers to one operation	

Security Control Example	Objectivity
Access Control	Confidentiality
Version Control	Integrity
Encryption	Confidentiality
Ensuring Fault Tolerance	Availability
Dedicating multiple servers to one operation	Availability

Risk Assessment

- Identifying and triaging the risks
  - How can an organization identify potential threats?
  - How can identified risks be ranked?
  - How can they deal with the identified potential risks?



Video: Risk Assessment (linkedin.com)

Cybersecurity Adversaries

- Are all hackers bad?
- Black-hat vs White-hat vs Gray-hat hackers

- Where do hacktivists fit?
- What about governments hacking efforts?
